JPMorgan Chase & Co, - Software Engineering Lite Virtual Experience (Forage)

PROFESSIONAL EXPERIENCE

LinkIt!

Technical Account Manager

New York, NY
02/2025 - 07/2025

- Spearheaded client onboarding and technical support for K–12 school districts, ensuring seamless system integration and validation of data accuracy.
- Collaborated directly with district IT teams to implement secure data integrations via SFTP and Clever, reducing onboarding defects by 30%.
- Debugged platform issues using logs and DevTools, working cross-functionally with engineering teams to quickly identify root causes and resolve failures.
- Customized dashboards and reports, conducting data verification and regression checks to ensure reliability of performance metrics.

Forge Noir Inc

Full Stack Engineer/ Internship

New York, NY
11/2023 - 02/2025

- Developed an AI-powered assistant for property listings, integrating automated workflows and test cases to validate context-aware responses.
- Extracted and cleaned data, building pipelines that supported test-driven integration and error monitoring.

- Applied debugging practices in JavaScript and React applications, leveraging Chrome DevTools and console logging to detect and fix defects in front-end logic.

GOOGLE

Tech Prep Rising Innovator

New York, NY
03/2023 - 07/2023

- Completed Tech Equity Collective's Tech Prep program. Tech Prep is a holistic career coaching program designed to support professionals looking to transition into technical roles.

Tri County Care

Data Analyst | Care Management Team

New York, NY
04/2020 - 05/2023

- Conducted data audits and case file validation to ensure compliance with Medicaid/OPWDD standards.
- Created reports and dashboards that identified patterns, errors, and edge cases, recommending fixes to improve program accuracy.
- Ensured 100% retention of assigned clients while successfully onboarding 10+ new clients per quarter, using structured QA processes to maintain quality of care

Achieve Beyond

ABA (Applied Behavioral Analysis) Therapist

New York, NY
04/2018 - 03/2020

- Conducted functional behavioral assessments, documenting test outcomes and performance benchmarks for intervention plans.
- Iteratively monitored and revised interventions, tracking failures and improvements to optimize client outcomes.
- Implemented Applied Behavior Analysis (ABA) interventions to address and modify maladaptive behaviors.

Young Adults Institute

Technology-Enabled Care Specialist

Dobbs Ferry, NY
04/2011 - 03/2020

- Implemented and managed evaluation metrics to track patient progress, utilizing data insights to collaborate with Primary Care Physicians; improving medication safety, tracking, and reporting; and promoting quality care through optimized access to and adherence to guidelines.
- Partnered with clinical teams to test, monitor, and refine workflows, ensuring compliance and reducing errors in medication tracking.
- Facilitated the onboarding process for new clients/individuals by integrating data-driven strategies to ensure seamless transitions and personalized support plans.

Capital Cookhouse, LLC

Creative Director | Founder

New York, NY
03/2014 - Present

Capital Cookhouse, LLC is a culinary movement that is influenced by culture. Meeting at the intersection of art and design, these experiences serve as transformative events.

- Launched and scaled a creative food consultancy business focused on experiential dining, wellness-infused branding, and digital content creation.
- Partnered with emerging food and food and lifestyle brands to develop innovative product experiences, resulting in increased customer engagement and brand loyalty.
- Consulted on food menu strategy and ambiance design for restaurants and events, merging creativity with data-driven feedback to optimize guest experience.

EDUCATION

Mercy College Graduate School

MPA, Masters of Public Administration

Westchester, NY

Mercy College

Bachelors of Science

Westchester, NY
